DETAILED ACTION

Claims 1, 2, 7, 9, 23, 24, 34 and 35 are pending in the application.

This action is in response to applicants' amendment dated July 13, 2006. Claims 1, 2, 7, 9 and 24 have been amended, claims 3-6, 8, 10-22 and 25-32 has been canceled and claims 34 and 35 are newly added.

Response to Arguments

Applicant's arguments filed July 13, 2006 have been fully considered with the following effect:

1. The applicants' amendment to the first line of the specification which states that "This application is the National Phase of PCT International application No.PCT/DK2003/000639 filed on September 29, 2003, which claims priority under 35 U.S.C. 119(e) to U.S. Provisional Application No(s). 60/426,368 filed on November 15, 2002 and under 35 U.S.C. 119(a) to Patent Application No(s). PA 2002 01456 & PA 2002 01738 filed in Denmark on September 30, 2002 & November 11, 2002, respectively."

However, as stated in the last office action, the reference to the applicants' priority documents in the first line of the specification is limited to those applications filed under 35 U.S.C. § 119(e) and/or 35 U.S.C. § 120, 121 or 365(c) not 35 U.S.C. § 119(a) as appears in the amendment to the specification.

2. With regards to the 35 U.S.C. § 112, first paragraph rejection labeled paragraph 3) in the last office action, the applicants' stated that claims 25-32 have been canceled and that claims 23 and 24 have been amended in a manner consistent with the relevant

points made by the Examiner. However, claim 24 provides for the prevention of disease or disorder associated with withdrawal symptoms caused by termination of use of tobacco, heroin, cocaine, morphine, benzodiazepines, benzodiazepine-like drugs or alcohol. Instant claim language embraces disorders not only for treatment but also for **prevention**, which is not remotely enabled. It is presumed in the prevention of the diseases and/or disorders claimed herein there is a way of identifying those people who may develop a disease or disorder associated with withdrawal symptoms caused by termination of use of tobacco, heroin, cocaine, etc. There is no evidence of record, which would enable the skilled artisan in the identification of the people who have the potential of becoming afflicted with the diseases and/or disorders claimed herein.

Claim 24 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention, for reasons of record.

3. The applicants' amendments are arguments sufficient to overcome the 35 U.S.C. § 112, second paragraph rejections labeled 4) of the last office action, which are hereby **withdrawn**.

4. The applicants' amendments and arguments are sufficient to overcome the 35 U.S.C. § 102, anticipation rejection labeled 5) of the last office action, which is hereby **withdrawn**.

5. The applicants' amendments and arguments are sufficient to overcome the 35 U.S.C. § 103, obviousness rejection labeled 6) of the last office action, which is hereby **withdrawn**.

In view of the amendment dated July 13, 2006, the following new grounds of rejection apply:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

6. Claims 1, 2, 7, 23, 24, 34 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

a) Claims 1, 2, 7, 23, 24, 34 and 35 are vague and indefinite in that it is not known what is meant by the definition of the variables n and X where there are no variables n and X in formula (IV).

b) Claims 34 and 35 are vague and indefinite in that it is not known what is meant by "derivative" which implies more than what is positively recited.

"Compound" is suggested.

Claim Objections

7. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
